RESPONSE

To the Director of the Patent and Trademark Office

Sir:

In response to the Office Action dated May 1, 2008:

Applicant provisionally elects Group I claims and traverses the requirement for restriction.

The invention is unitary. The claims are but varied descriptions of the unitary invention. For example, compare lines 2 and 3 of claim 1 with lines 4 and 5 of claim 13 (Group II) and lines and the electronic pointing means in claim 19 (Group III) with the movable ground electrode in claim 18 (Group I).

The office action does not state reasons for the requirements or the classification of the groups.
